AGC Houston Member Safety Excellence Awards

Associated General Contractors of America, Inc. - Houston Chapter

AGC Houston Safety Excellence Award

The AGC Houston Safety Excellence Award recognizes a construction company demonstrating leadership in safety management. Award recipients are recognized by their peers for promoting safety excellence.

In 1998, the Safety Committee initiated the award for members of AGC Houston. The award recognized members for their commitment to safety on their construction sites. The award is intended to encourage development of improved safe practices and to recognize leading companies with excellent safety records. The AGC Houston Safety Committee intends to continue recognizing local subcontractors, who are dedicated to safety and are Specialty Contractor Members of the AGC Houston. Award nominations are encouraged from General Contractors, who best observe the on-site safety performance their subcontractors.

The AGC Houston Safety Committee is proud to announce C. F. McDonald Electric, Inc. as the 2008 recipient of the AGC Houston Safety Excellence Award.

C. F. McDonald Electric, Inc has a proven track record in safety. They are dedicated to the safety and well being of its employees and others who could be affected by their actions on the job site. They commit a great deal of time to ensuring that their employees are trained and educated on safe work practices and they perform job sites safety inspections to ensure that this education and training are being implemented on the job. McDonald Electric also has a dedicated safety professional in Ike Osborn. Not only is Mr. Osborn authorized to stop unsafe work practices but its employees are as well. The Management at McDonald Electric, from the President down, has a commitment to run all jobs with safety in mind as the number one priority.

With such dedication to safety it was an obvious choice for C. F. McDonald Electric, Inc and it's employees to be recognized for a job well done in construction safety.

Houston, TX 77017

Dear Mr. Osborn:

The Johnson Space Center (JSC) Contractor Affairs Safety Committee (CASC) & Contractor Safety Forum (CSF) has created the CSF Safety Excellence Award to recognize contractor organizations that have demonstrated Excellence in Safety and Health and significant participation in JSC Safety and Health activities.

Mr. David Cazes, CSF Chair, and Mr. Terrence W. Wilcutt, Director, JSC Safety and Mission Assurance are pleased to inform you that the selection committee has awarded you the 2009 Contractor Safety Forum Excellence Award – STELLAR, which will be presented at the March 30, 2010 Contractor Safety Forum. Please designate a management and employee representative to receive your award.

Each candidate submitted their respective application with OSHA incidence rate safety data, participation level in the CASC and CSF, and a description of safety “innovations” or a “safety and health service” to the JSC community. The information submitted was evaluated and scored by an Awards Committee made up of contractor representatives to determine the candidates that meet the required criteria and the award level of Safety Excellence. The awards are presented in three levels: Stellar, Nova and Super Nova. Again congratulations and we look forward to presenting your award.

Should you have any questions, please contact Derek Robins at 281-335-2011.

Sincerely,

A handwritten signature in black ink that reads "L. David Cazes". The signature is written in a cursive, flowing style.

L. David Cazes
Chair, Contractor Safety Forum
